ABOUT ME

Final-year Psychology student trained in psychological research, quantitative data analysis, and hands-on community work, with a growing focus to constructive social change. Interested in how emotion regulation, communication, and interpersonal processes shape conflict, cooperation, and well-being within social environments. Seeking to develop this perspective through Erasmus Mundus SPOT's interdisciplinary approach to social transformation.

EDUCATION & TRAINING

BS Psychology

International Islamic University, Islamabad [01/02/2023 - Current]

City: Islamabad | **Country:** Pakistan

Website: <https://www.iiu.edu.pk/> | **Final grade:** 3.98 out of 4.00 (Current CGPA)

Relevant Coursework: Social Psychology, Community Psychology, Personality Theories, Research Methodology I & II, Applied Statistics I & II, Psychological Testing I & II, Experimental Psychology, Introduction to Management, Human Resource Management

RESEARCH EXPERIENCE & PROJECTS

[01/02/2026 - 16/06/2026]

Undergraduate Research Project | Supervisor: Dr. Nazia Iqbal

"The Role of Psychological Modulation and Emotion Regulation in Pain Perception among Young Adults"

International Islamic University Islamabad | N = 151

- **Investigated** the relationships between perceived stress, pain catastrophizing, emotion regulation, and pain perception in young adults using a correlational cross-sectional design.
- **Collected** questionnaire-based data from **151 undergraduate students** using the PSS-10, PCS, ERQ, NRS, and demographic sheet through convenience sampling.
- **Analyzed** data in **IBM SPSS** using descriptive statistics, Cronbach's alpha, Pearson correlations, multiple regression, hierarchical moderation analysis, and independent-sample *t*-tests.
- **Found** that perceived stress and pain catastrophizing significantly predicted pain perception, with the model explaining **41.7% of variance**.
- **Authored** an APA-style research paper and defended it before a 3-member departmental committee, receiving an A grade.

Quantitative Data Analysis Projects

Independent secondary-data analysis | IBM SPSS

- **Social Media Usage and Mental Health:** Analyzed an online secondary dataset of **1,000 participants** using descriptive statistics, Pearson correlation, and independent-sample *t*-tests to examine anxiety, mood, and productivity.
- **Sleep Quality and Academic Performance:** Examined the relationship between sleep quality and academic performance using descriptive statistics, correlational analysis and group comparisons.
- **Employee Engagement as a Predictor of Workplace Outcomes:** Applied multiple regression analysis to

examine employee engagement as a predictor of workplace outcomes.

WORK EXPERIENCE

Pakistan Institute of Medical Sciences (PIMS) Public tertiary-care teaching hospital in Islamabad - Pakistan, Islamabad

Website: <https://gaotek.com/>

Clinical Intern | Psychiatric OPD & Autism Clinic | Supervised by: Assist. Prof. Dr. Hafiz Sultan Muhammad

[01/03/2025 - 31/12/2025]

- **Analyzed** psychiatric and neurodevelopmental cases, developing practical understanding of how psychological difficulties and systematic barriers affect family and community well-being.
- **Examined interpersonal communication patterns and behavioral responses**, developing practical understanding of how social and environmental stressors influence vulnerable individuals and their behavioral functioning.
- **Performed supervised case-history taking and clinical documentation**, translating patient interactions into structured reports, strengthening skills relevant to assessment and psychosocial support.

GAO Tek Inc. (International technology company based in USA, serving in more than 50 countries) - Pakistan, Remote

Website: <https://gaotek.com/>

HR Intern

[15/03/2026 - 15/08/2026]

- **Sourced and screened 10+ international candidates** across recruitment pipelines, using cross-cultural communication frameworks to assess candidate fit and reduce evaluation bias.
- **Evaluated communication dynamics**, candidate responses and role expectations, providing **behavioral insights** that helped the organization make more inclusive decisions to support diverse talent.
- **Managed interview workflows** and recruitment documentation through email, Microsoft Teams and Outlook, assisting timely communication to increase candidate engagement and trust.

VOLUNTEERING & COMMUNITY WORK

[14/07/2026 - 05/09/2026]

Intern — Volunteer Management Department | Alkhidmat Foundation Pakistan | Six-week hybrid program | Pakistan

Humanitarian and community-development organization focused on volunteerism, community engagement and social impact.

- **Completed certified** training in Psychological First Aid, humanitarian response and emergency preparedness to strengthen understanding of psychosocial support and community resilience, and guided **25+ student interns** through practical field simulations.
- **Contributed to climate-resilience and disaster-risk-reduction activities** (urban greening and plantation drives), to promote environmental responsibility and collective engagement
- **Led a team of fellow interns** in delivering psychosocial and foundational educational activities in Child Protection Center, **re-engaged 120+ street-connected & vulnerable children** using interactive learning tools (play therapy, sports, writing exercises, distributing gifts) to increase social inclusion and cooperation.

LEADERSHIP & MANAGEMENT EXPERIENCE

[05/12/2025 - 05/04/2026]

Ambassador - Young Psychologists Society (YPS)

Youth-led psychology platform promoting psychological awareness, learning, and engagement.

- **Promoted mental-health and psychosocial support** through webinars, online workshops, and courses, encouraging open discussion of mental health and youth engagement beyond the university setting.
- **Used social media (LinkedIn, Instagram, Facebook) as a community-awareness tool**, turning the psychological concepts into simple, accessible messages for young audience.

Millennium Fellow - Class of 2026 | SDG 3: Good Health & Well-being | Social Impact

Global undergraduate leadership program presented by United Nations Academic Impact and Millennium Campus Network.

- **Secured** global fellowship and **proposed** a community-initiative project, **“Healthy Homes, Stronger Minds”** to address emotional neglect, family conflicts and empathy deficits.
- **Facilitated discussions and workshops**, using **constructive-conflict skills** - active listening, emotional-expression, perspective-taking, and respectful disagreement to shape healthy behaviors and strengthen cooperation within families and communities.
- **Engaged 90-100 participants** (parents, teenagers, and young adults), through **awareness circles** focused on emotional literacy, conflict resolution, supportive communication, and healthier family interactions.
- **Evaluated the intervention** through **pre- and post-session** responses to assess the understanding, recording a **40%** measurable improvement.

AWARDS & ACHIEVEMENTS

Millennium Fellowship — Class of 2026: Selected for the global undergraduate leadership program based on leadership potential and dedication for global Impact.

Higher Achiever Award — Alkhidmat Foundation Pakistan (2026): Recognized for strong performance and engagement during the six-week Summer Internship Program.

Prime Minister's Youth Laptop Award (2025): Received a merit-based laptop on outstanding academic performance.

High Academic Distinction: Maintaining a high academic standing (3.98/4.00) throughout the BS Psychology degree.
